Registrations and Certifications

CERTIFICATE

This is to certify that the Energy Management System of
TASISAT CONTRACTING EST
Al-Madina Al-Munawarah, Alranona'a District , Kingdome of Saudi Arabia

has been assessed and found to conform to the requirements of

ISO 50001:2018

This Certificate is valid for the following scope

Electro mechanical contracting & solar energy

Certificate No.	:AMER36141	
Original Issue Date	:08/12/2025	
Issue Date	:08/12/2025	R0
Surveillance/ Expiry Date	:07/12/2026	
Recertification Date	:07/12/2028	

Director

AMERICO QUALITY STANDARDS REGISTECH PVT. LTD

India Office: Office no 407, Commerce Center, Pimple Saudagar, Pune, 411027

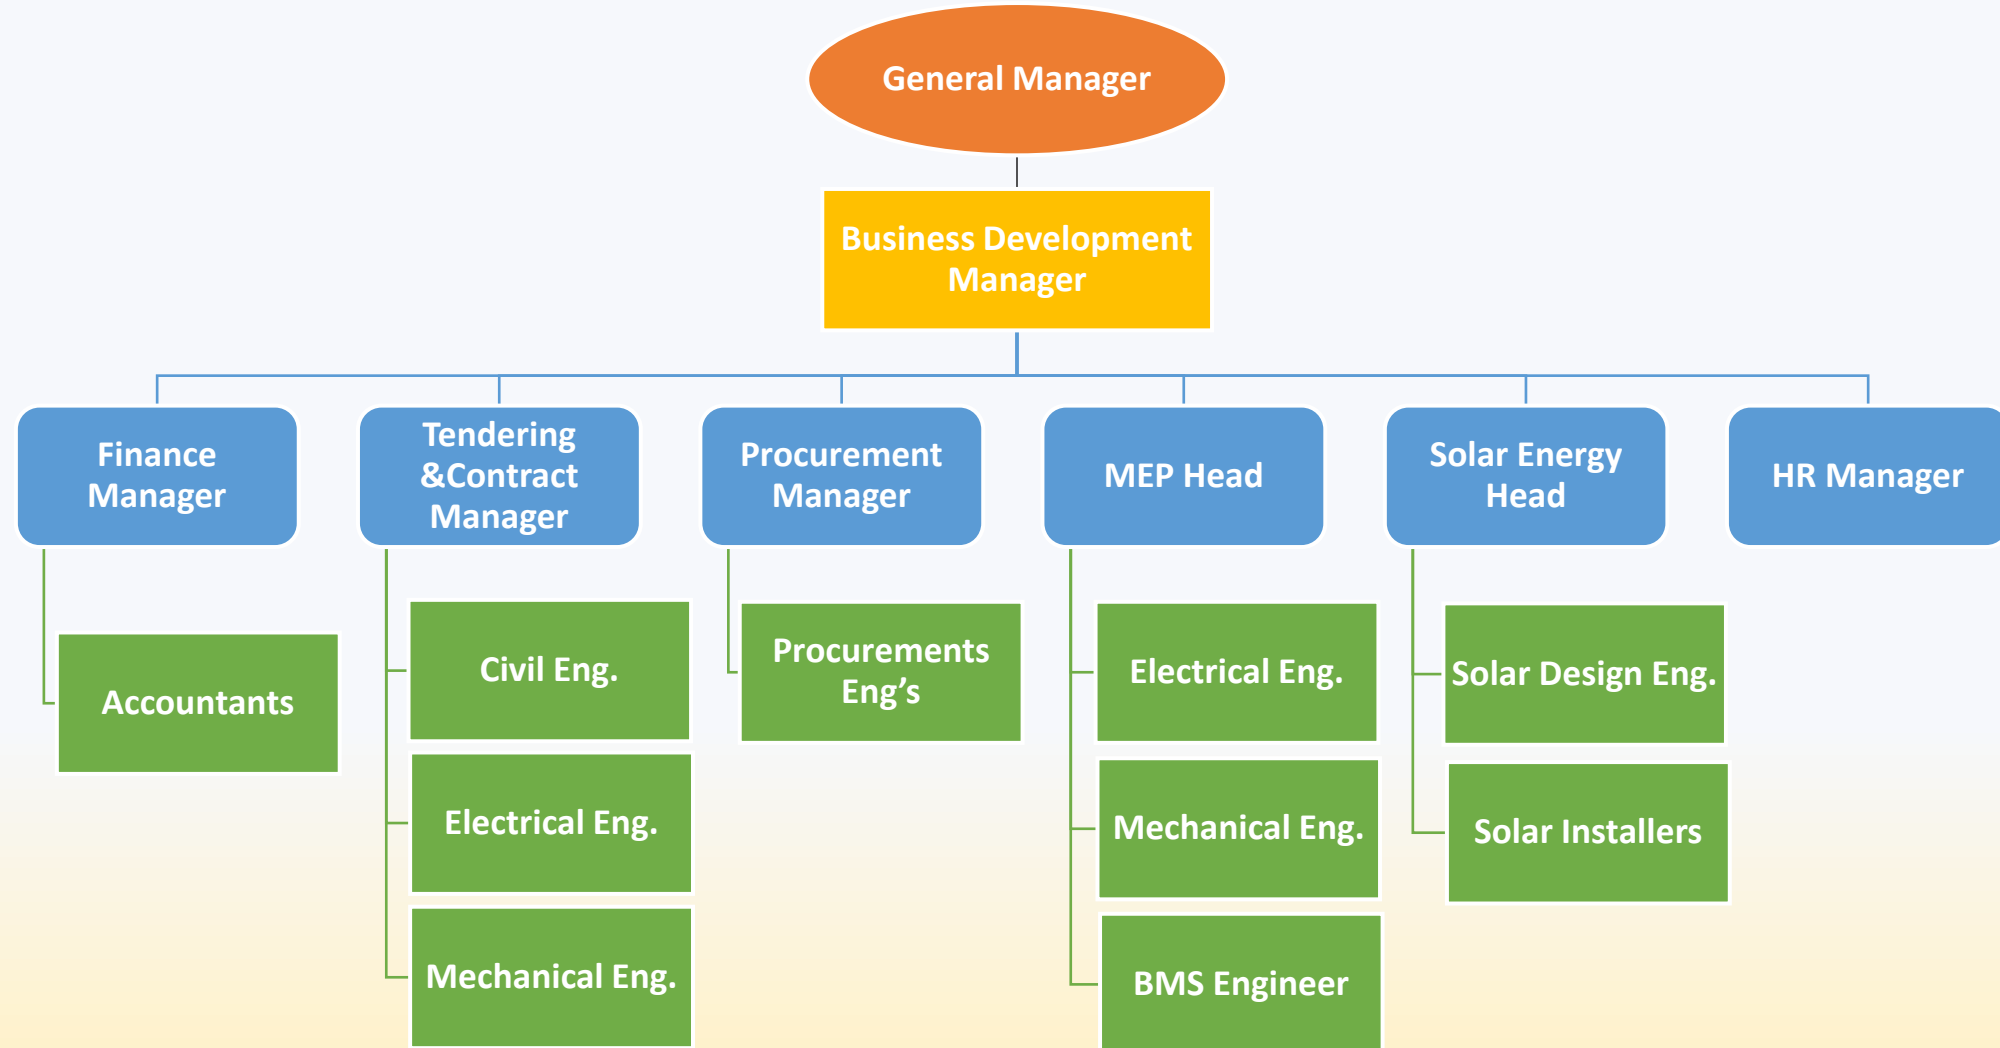

TASISAT CONTRACTING CO

- TESISAT was established in November 2009 as a general contracting company, with operations based in Al Madinah Al Munawarah and Riyadh. Since its inception, TESISAT has grown to become one of the leading general contracting companies in the region.
- Over the years, TESISAT has successfully delivered more than 200 projects, covering a wide range of services including residential building construction, landscaping, water piping and drainage systems, mechanical and electrical works, as well as solar photovoltaic and solar thermal energy solutions.

CORPORATE STRUCTURE

VISION & MISSION

Mission

TASISAT is committed to delivering high-quality, cost-effective projects through motivated, flexible, and focused Individuals. We value strong, fair relationships with our employees, clients, subcontractors, and partners, and strive to build long-term client partnerships based on quality, health and safety, timely service, and anticipation of needs. We treat all employees fairly and engage them in continuous improvement to ensure responsive and effective project execution.

Vision

TASISAT Vision is to be the market leader in MEP Contracting and related services, we aim to earn our customers enthusiasm through continuous improvement driven by the commitment of the top management, integrity, teamwork, and innovation of our people. Our vision serves as the framework and roadmap that guide every aspect of our business by describing what we need to accomplish in order to continue achieving sustainable quality growth.

Our Activities

TASISAT Contracting Co. offers complete general Contracting solutions from design, supply, installation, testing and commissioning of the Finishing Works, Structure, and MEP systems that include Electrical, Fire Alarm, Fire Fighting, Low Current, Plumbing, Drainage, Solar Photovoltaic Systems, Solar Water Heating Systems, HVAC as per the requirement of the local authorities of the Saudi Arabia, for commercial and residential buildings, group of villas, hospitals, Metro Stations, shopping malls, high rise towers, infrastructure and industrial projects.

1. Fit-out Services

Delivering complete mechanical, electrical, and plumbing solutions for commercial and residential projects; completing gypsum board partitions and ceilings; painting, tiles, and MEP, which includes air outlets, lighting fixtures, fire alarm devices, CCTV, etc.

Our Activities

2. Electrical Services

TASISAT has specialized engineers for the low voltage systems and fire alarm systems

- Low Voltage System

Small Power Systems that include Conduiting & Wiring, Cable Pulling and Termination, MCC panels, Main Distribution Boards, Sub Main Distribution Boards, Power Factor Correction Capacitor.

- Street Lighting

Installation of lighting poles, for the gardens, and streets, and high ways.

- LED Retrofit and Lighting Control

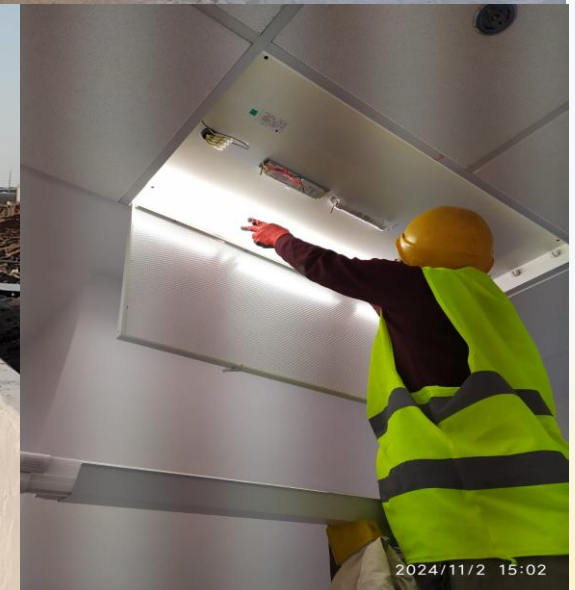

Maintenance and retrofit of Interior and Exterior Lighting system by LED types for Energy saving, motion sensors, timers and photocells.

- Fire alarm and UPS

Device, loop test, integration with other devices, Battery racking and termination of UPS panels.

- CCTV Surveillance and Smart Solutions

Smart meter installation, Camera Systems, access control, gate Barrier, Structured Cabling, Lighting Control, Intercom, SMATV.

Our Activities

3. Mechanical Services

TASISAT has specialized engineers for the plumbing, fire fighting, HVAC systems and cladding.

- Firefighting & FM200

Sprinklers, fire hose cabinet, landing valves, pump sets, piping with valves and FM200 cylinders and integrity testing.

- Plumbing and Drainage Systems

Domestic Cold and Hot Water Systems that include water transfer and booster pumps, water tanks, water heaters (central and domestic), cool water systems, water filtration and water treatment systems, etc.

- HVAC Systems and cladding

Duct works installation, AHU's, FCU's, Chilled water piping systems, Splits, VRV, and Chiller installation and testing commissioning. applying an external layer or "skin" to a building's walls or ceiling to protect the structure from weather, improve insulation, and enhance its appearance.

Our Activities

4. Solar Energy Solutions

TASISAT has specialized engineers for the Solar Photovoltaic and solar thermal solution for Residential and Commercial Buildings.

- Solar PV Systems

Solar PV ON-grid and off-grid solution, hybrid diesel and solar solutions, engineering inhouse with specialized team and installers, solar pumping systems, solar street lighting and Surveillance.

- Solar Water heating systems.

Thermosyphon systems for villas, and centralized solar water heating systems for the commercial buildings. Exclusive partner/distributor of Delpaso Solar thermal products.

Our Activities

5. BMS and Automation

Our services offer a centralized, intelligent, and scalable solution designed to optimize building operations, enhance energy efficiency, and ensure occupant comfort.

Integration of energy meters with weather stations and SCADA systems.

Recent Projects

Project	Scope	Client	Year
Replacement of 1500 Air Conditioning, lighting and control in MOH-Qassim	Mechanical, Electrical, and control	Tarshid	2025
Installation of Façade Lighting for Emaar Tower in King Fahad Road	Lighting Control	Emaar AlModon	2025
Installation, testing Commissioning Solar PV 3.15 MWP KSAU- uni and Hospitals	Solar PV	Tarshid	2025
Grand mosque in king Salman park Installation of 3,000L Solar water heaters	Solar water heating	Freyssinet	2025
Replacement of Split units, Lighting and Lighting control in Yanbu Male Colleges and Female Colleges	MEP	Arabian Qudra	2024
KAFD- Parcel 4.06, Ducting work, AHU connection, and cladding	HVAC	Al-Bawani	2022
Installation, testing and commissioning of Solar street lighting systems in sharma Neom	Street Light	NEOM/SAMA	2024
Installation, testing and commissioning of Solar street lighting systems in Duba Neom	Street Light	NEOM/Abyatona	2024
Installation, testing and commissioning of Fire Alarm System in Parcel 1.12- KAFD	Fire Alarm	Thabat	2022
Installation of Energy meters and BMS-DDC panels in Sattam university in Kharj	BMS	ENGIE	2022

Recent Projects

Project	Scope	Client	Year
Replacement of Lighting, Control, PACU's and Splits in the GDMS- Riyadh	MEP	Tarshid	2025
Installation, testing commissioning of 2.55 MWP in TVTC in Jeddah	Solar PV	Tarshid	2025
Installation , testing of complete roof top of solar on grid system for TAIF university (Male & Female) 2.5 MWP	Solar PV	Tarshid	2025
installation, testing and commissioning of solar on grid system for 200 schools (3000 KWP) in Madina Almunawarah	Solar PV	Zamil Services	2025
Replacement of Split units, Lighting and Lighting control in Yanbu Male Colleges and Female Colleges	MEP	Arabian Qudra	2024
Installation, testing commissioning of Solar PV on grid system in Islamic University in Madina Al-Munawara 1.5MW	Solar PV	Tarshid	2025
Supply Installation, testing commissioning of Solar PV on grid system 270 KW Khaled International Schools	Solar PV	Direct	2025
Solar pumping system for multi farms in Madinah region capacity reach 200HP	Solar Pumping	Private sector	2024-2025
Supply, installation complete solar ff grid system for CCTV and Wi-Fi in third industrial city	Solar PV	MODON Jeddah	2025
installation of 540 KWP solar system for SGS in Jeddah	Solar PV	Tarshid	2025

Recent Projects

Project	Scope	Client	Year
KAFD- Parcel 4.06, Ducting work for 6 floors and AHU connection and cladding	HVAC	Al-Bawani	2022
Fabrication, installation of Alumnim Cladding for CHW pipes and Duct works in Parcel 1.12 KAFD	Mechanical	Thabat	2023
Installation, testing and commissioning of Fire Alarm System in Parcel 1.12- KAFD	Fire Alarm	Thabat	2022
Installation, testing, and commissioning of centralized solar water heating system 30,000L in parcel 1.12 KAFD	Solar water heater	Thabat	2022
Installation, testing and commissioning of centralized Solar water heating Systems 20,000L in Parcel 3.10 in KAFD	Solar water heater	MOBCO	2022
Installation, testing and commissioning of centralized Solar water heating Systems 30,000L in Parcel 1.08 in KAFD	Solar water heater	Saudico	2019
installation, testing commissioning of solar PV 1.4 MWp in Princess Noura University in Riyadh	Solar PV	Tarshid	2025
Installation of 6.1 MW solar on grid roof top system for 60 Schools of Tatweer in Al-Madinah	Solar PV	MOBCO	2024
Installation of VRF Split system including step-up transformer modification in Tunis Embassy in Riyadh	HVAC and Electrical	Johnson Controls	2024
Supply, installation of solar thermodynamic solar system for Conrad hotel in Riyadh	Solar Thermodynamic	EDSCO	2025

KSAU in Jeddah 3.2 MW

Al-Madinah Tatweer Schools 6.1 MW

King Khaled hospital in Al-Kharj (replacement of PACU's)

TVTC – Switchgear replacement and Solar 2.55 MWP in Jeddah

Project Quality Policy

✓ Project Audit & Quality Review

List of project quality audits and reviews that will be performed. Discussion of planned schedule. Description of how the results of these audits and reviews will be factored into project planning and implementation. Discussion of the process of lessons-learned reviews and how those lessons can benefit the project team as the project continues.

✓ Quality Team Roles & Responsibilities

Identification of quality-related responsibilities of the project team and list specific task-related quality responsibilities, including responsibility for specific acceptance tests and project audits.

✓ Quality Plan Audit Log

List of all quality-related issues and resolutions resulting from quality plan audits and reviews.

✓ Quality Plan Approval

Our duty is only then completed when the Quality of our performed work is evaluated as excellent by our project managers and approved by the project sponsor, executive sponsor and client sponsor.

Quality Policy Statement

- ❖ **TASISAT firmly believes that our systemic procedures and business processes, professionally followed and well** Accomplished by our enthusiastic staff, clearly indicates our care and continuance in providing high levels of our quality works, customer service and customer satisfaction.
- ❖ TASISAT strives to consistently providing quality engineering with the most reliable and efficient maintenance services, subject to total compliance on all its requirements, and where possible exceeds the expectations of our customers.
- ❖ TASISAT focuses on training and development of its personnel through their flexibility and adaptability to service the overwhelmingly transforming business environment, by innovative working techniques and continuously improve the efficacy of our design and building management systems. We will ensure that all our staff having good knowledge and understanding of our quality objectives, working towards meeting the system requirements, and committed to developing processes and promoting new ideas. To address and achieve an ongoing progress in quality service and customer satisfaction.
- ❖ TASISAT will maintain, review and revise its quality objectives and targets annually.
- ❖ TASISAT will conduct quality audits and reviews on all operational activities at least once a year, and will allocate human, financial and other resources appropriately in order to achieve targeted results.
- ❖ TASISAT is committed with established quality management system, both administrative and operational, to work towards continuous improvement on its quality performance.

Environmental Management Policy Statement

- ❖ **TASISAT** aims at preserving the environment for our future and provides its support to free the planet from CFCs. We will identify and better manage our environmental risks and opportunities.
- ❖ TASISAT closely observes and works with employees, clients, suppliers and other related organizations to upgrade our enduring operational strategies and working procedures to best practice standards.
- ❖ TASISAT prime target operationally is to eliminate our negative environmental impact by wherever possible minimizing the wastage, and prevent the usage of environmentally unfriendly products, while endeavoring to maximize our positive environmental impact and better living conditions. We will keep up and maintain the environment around us clean and safe, and regularly monitor, raise alarm and respond to any hazardous environmental situation observed.
- ❖ TASISAT ensures that its activities will always comply with the Government's Environment Policy, follow and maintain them in all our administrative, operational, logistics and site areas of our projects.
